

YUKON PUBLIC HEARINGS PANEL

on

ALASKA HIGHWAY GAS PIPELINE PROJECT

DISTRIBUTION OF COMMUNITY AND TECHNICAL BRIEFS

During March and April, 1979, public hearings are being held on the proposal for the Alaska Highway Gas Pipeline. The hearings are in two parts. First, community hearings were held at centres along the proposed pipeline route, including Whitehorse. Hearings were also held at Faro and Dawson. Second, public hearings dealing with technical subject matter will be held at Whitehorse in the week of April 23.

Briefs from the community hearings are now ready for distribution to interested parties. The briefs from the public hearings on technical subjects will be ready in early May, 1979. You can obtain a copy of the briefs by checking the items on the attached reply card. These briefs are made available free of charge to the public and to organizations under the auspices of the Federal Environmental Assessment and Review Process.
